Modernization Project @ Beijing Yintai Center

Customized for Tianjin OTIS, Suzhou Genesis provided 4 panel telescopic doors to modernize the imported ones at Beijing Yintai Center. Suzhou Genesis as the only solution provider for 4 panel telescopic doors in China shows to the market our technical competence in product development and special solutions.

GENESIS NEWS

New Products - Patented

Genesis newly introduces to the market a high competitive universal door operator - GDM. This operator can work and match with common landing door hangers manufactured or selected by customers with both asynchronous and synchronous cam solutions. GDM takes rolled door guide rail with 3mm thickness, and door top rollers of Ø94mm diameter, which guarantees high strength of the product and working performance. With AC servo control and WIFI remote adjustment function, the new door operator has passed over Million times life test.
